GENERAL PRODUCT INFORMATION

The Marking ring is part of the PHILIPP Threaded anchor system and is used for marking the installed anchor. The plastic Marking ring is put over the threaded insert during the installation of the anchor. Afterwards the threaded transport anchor is fixed to the mould (Picture 2).

Due to the colour-coded marking a quick and correct classification of the corresponding lifting device is ensured (Picture 3).

NOTE!

Marking ring only suitable for Threaded transport anchors in version galvanised.
